

INFOCENTER III™

The Information System to Fit Your Business

▼
Welcome Guests

Promote Safety

▼
Announce Special Events

Communicate To Employees

▼
Communicate Any Emergency Information

The INFOCENTER III™ was designed as an interior, short distance electronic message information system. They can be installed anywhere in a building or complex to communicate to your entering visitors or working professionals. Equipped with 2" LED, your message can be clearly visible from up to 100 feet away. And with 4 lines and 16 characters per line, and 26 pages of memory, all your current and future events can be displayed at a time.

Unique Features

- ▶ 2" LED
- ▶ Visible From Up To 100 Feet
- ▶ Viewing Angle of 45°
- ▶ Displays Up To 64 Characters Per Page
- ▶ 26 Pages of Memory
- ▶ User Friendly Software
- ▶ Consumes Less Than 100 Watts Of Power
- ▶ Virtually Maintenance Free For 10 Years
